

Welcome Home

Live safe. Live well.

Protect your home and family with state-of-the-art, professionally monitored security.

Protect more

Connected smoke and carbon monoxide detectors and proactive technology keep you safer at home.

Rest assured

Enjoy peace of mind knowing your system is built to withstand a burglar's toolkit and will work even if the panel is destroyed.

Professionally monitored home security

Your home security system will always be on guard. In emergencies, you'll have a 24/7 monitoring team on hand to alert your local police, fire, or EMS immediately.

ALARM.COM

Lock was left open at 14h43 on Tuesday, 4/5.

Lock Door

Get an alert if you forget to arm your system, or if there's unexpected activity that you should investigate.

See Everywhere

See what's happening everywhere, from anywhere, with intelligent, helpful video alerts, and a whole-home view of important activity.

See more

View live and recorded video from indoors, outdoors, and your front door.

Know more

Specify which video alerts you want, and get more insight with less interruption.

Do more

See and talk to your family, visitors, and contractors through your mobile app.

Get the actionable alerts you care about with Video Analytics. Video Analytics ensures your cameras are on the lookout for what matters most, and doesn't crowd your phone with alerts about things that don't.

Your Day, Your Way

From your windows to your water supply, you can protect and control more of your home with Alarm.com.

Stay safe from fire and carbon monoxide

Ordinary smoke and carbon monoxide detectors offer limited protection. Alarm.com powered detectors work with your security system to keep you safe and professionally protected, 24/7.

Easy to manage

False alarm because dinner was burning? You'll never have to worry about false alarm fines again since you can cancel them quickly from your Alarm.com app.

Protect your home from leaks and floods

Get alerted if water is detected by wireless water sensors in hard-to-reach areas and shut off your home's water supply from your app to stop a flood in its tracks. If you're not home, Alarm.com can shut off your water automatically.

now

Emma unlocked the Front Door at 15h12.

Go Key-Free

Enjoy a new level of control and convenience with connected locks and garage door controllers.

Lose the keys

Create and delete customisable access codes for family and visitors, with time restrictions and expiration dates.

Stay in the know

Get alerted when family members get home, arrive late or forget to lock up.

Simplify your security

Arm and disarm your system automatically when you lock or unlock your door.

Lock up with one touch

Left home without locking up? We've got your back. We'll send an alert so you can secure your home remotely with one touch.

Relax

Enhance your home interior with responsive details that you can customise to perfection.

Lighting and shades

Light up your life with connected dimmers and color-changing bulbs. Enjoy more privacy and convenience with automatic window shades. You can control them with your voice, your phone, or with a customised schedule.

Audio

Start your day the right way with an automatic music soundtrack. Our industry leading audio integrations let you include music in your Scenes and control your audio from your Alarm.com app.

Take care of every detail with our one-touch Scenes commands to instantly customise your security system, locks, lights, shades, and much more. .
